Summary

Full Stack Developer specializing in the MERN stack with hands-on experience building and deploying scalable web applications. Developed ML-integrated solutions achieving 90% prediction accuracy. Proficient in REST API development, performance optimization, and cloud deployment. Passionate about solving real-world problems with modern technologies.

Technical Skills

Frontend: React.js, HTML5, CSS3, JavaScript

Backend: Node.js, Express.js

Database: MongoDB

Machine Learning: Python (Basic ML Integration)

Tools & Platforms: Git, GitHub, Postman, Vercel, Render

Core Skills: REST API Development, Responsive Design, Performance Optimization

Experience

SmartED

Jul 2025 – Sep 2025

Full Stack Developer Intern

Remote

- Developed responsive full-stack web applications using the MERN stack, improving user experience across devices.
- Designed and implemented RESTful APIs for efficient and scalable data handling.
- Built reusable React components, reducing overall development time by 20%.
- Optimized frontend performance, decreasing page load time by 25%.
- Collaborated in an Agile environment to plan and deliver scalable product features.

Projects

Agro-Suggester

Oct 2025 – May 2026

Tech: MERN Stack, Python, Machine Learning, REST API

- Built a full-stack application to predict crop health using soil and weather data inputs.
- Integrated a Python ML model via REST API into a React dashboard, achieving 90% prediction accuracy.
- Optimized API response times for improved performance under production load.
- Deployed frontend on Vercel and backend on Render for scalable cloud hosting.

Airbnb Clone

Jul 2025 – Aug 2025

Tech: MERN Stack, Google Cloud

- Developed a responsive Airbnb-style UI featuring dynamic listings and advanced search filters.
- Architected reusable React components optimized for multi-device compatibility.
- Delivered clean, maintainable code that improved page load performance by 25%.
- Ensured cross-device compatibility and deployed the application on Vercel.

Education

KCG College of Technology, Chennai

2022 – 2026

B.E. Computer Science and Engineering

CGPA: 7.63

GHS School, Maddur

2021 – 2022

Higher Secondary Certificate (XII)

73.67%

GHS School, Maddur

2019 – 2020

Secondary School Certificate (X)

77.6%

Certifications

- MERN Stack Certification *Sep 2025*
- Infosys Python Certification *Mar 2023*
